ActivBoard

The **ActivClassroom** by PROMETHEAN

In the ActivClassroom The universe opens Students become stars And lessons soar.

Sight, sound and sense are integral parts of teaching and learning; we all learn differently, in different combinations, inspired by different interactions. The ActivClassroom is designed to capture the imagination of any learner — with colour, movement, audio and interaction — now all available, seamlessly.

More than the eye of the ActivClassroom, the ActivBoard is a hub of activity. On some models, integrated speakers and amplifiers add zero-hassle stereo sound to the lesson. Adjustable stands, near shadowless short-throw projectors and a durable, classroom-ready surface mean the lesson is meant for everyone.

Dual-User capability is built-in or a simple upgrade away, making the board a centre for collaboration, a starting line for learning races and a tutor's corner. And add our ActivInspire software as well as access to tens of thousands of even more exhilarating free lessons and resources at PrometheanPlanet.com, and 21st century teaching culminates in a 360-degree learning experience unlike any other.

ActivBoard 300 Pro

See. The ActivBoard 300 Pro Range comes in one standard and two widescreen sizes; features a tough surface backed by an electromagnetic grid that pokes, prods, and leaning shoulders won't disturb; and captivates with full colour and crystal clear motion.

Hear. Thanks to integrated stereo speakers and a board-mounted amplifier, the ActivBoard 300 Pro Range is a portal to far-away places, long-ago times and otherworldly soundscapes. Augment your lessons with included sound clips or add your own via the amplifier's integrated audio inputs, and any lesson becomes an engaging adventure.

Touch. ActivInspire Dual-User functionality comes standard with the ActivBoard Pro 300 Range, as do two Teacher and two Student ActivPens. Use one Teacher and one Student pen at a time to facilitate collaboration, competitions and at-the-board assistance.

A resource-rich educational experience.

Connect with PrometheanPlanet.com, the world's largest online educator community for free training, support, and tens of thousands of lessons created by educational resource leaders and ActivClassroom teachers.

Engage. The ActivBoard 300 Pro Range comes complete with ActivInspire Professional Edition software, which features working rulers, protractors, and compasses; inspirational resources, templates and activities; and seamless integration with every piece of the ActivClassroom — learner response devices to slates, document cameras to pens, and much more.

ActivBoard 300

Just like students, ActivBoards come in all sizes and abilities. In the ActivClassroom, everyone (and everything) has the opportunity to grow and change. Our ActivBoard 300 Range is no different. In three sizes and two widescreen formats, and with a classroom-tough screen, engaging color and movement, ActivBoard 300 is a great starting point for building your ActivClassroom. Enhancements like stereo sound, wireless connectivity and Dual-User functionality are only simple upgrades away.

Activboard 300 features:

78", 87" and 95" sizes

Widescreen (87" and 95")

USB power, plus two USB ports for memory sticks, web cameras and other peripherals

Two Teacher ActivPens

ActivInspire Professional Edition

Easy upgrade to Dual-User technology, wireless connectivity and sound
