

Dear Parents,

I would like to ask for your support in a mobile phone recycling initiative www.phonesforboards.com which will provide our school with an interactive white board, free of charge, while also raising money for the Jack & Jill Foundation when we collect 300 old mobile phones. This target of 300 old mobile phones (in any condition) is certainly achievable as most households have a few old mobile phones in drawers, cupboards etc. So please round them up and I would be grateful if you could hand them into the school over the next 4 weeks.

The Jack & Jill Foundation (www.jackandjill.ie) is an Irish charity that supports the families of babies who are born with or develop brain damage and who suffer severe intellectual and physical developmental delay as a result. Today it provides home nursing care to 300 families in Ireland and the recycling of mobile phones is its main source of funding, with 250 mobiles providing home nursing care for a sick child for one month. The service includes home visits, advice, information, funding, lobbying and bereavement support and now more than ever they need our support.

Thank you in advance for your help. It is important that every family plays their part in this collection. Your phones can make a real difference to the success of our campaign.

Yours faithfully,

School Principal
